DETAILED ACTION

Response to Arguments

1. Applicant's arguments see Remarks, filed 7/29/2005, with respect to claims 1-23 have been fully considered and are persuasive. The rejection of claims 1-23 has been withdrawn.

Allowable Subject Matter

2. The following is an examiner's statement of reasons for allowance: as to independent claims 1, 8 and 15, the closest prior art of Guo et al alone or in combination with other prior art fails to disclose or fairly suggest the claimed invention as recited in claims 1, 8 and 15. In particular the key distinction between the prior art of records and instant claimed invention is that the prior art of Guo et al does not rely upon computing optical flow for each pixel within at least one of the images under a constraint derived from the epipolar geometry by computing a component of the optical flow using a median as specified in specification.

Accordingly claims 1-23 are allowed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
